GENERAL INDEX OF CITIES AND TOWNS OF THE WORLD

(EXCLUSIVE OF THE UNITED STATES OF AMERICA AND DOMINION OF CANADA)

This alphabetical list of cities and towns gives statistics of population based on the latest official census reports. Each line begins with the name of a place, followed by the name of the country or state, the population, the index reference and the plate number. The index reference indicates the location of the city or town on the accompanying map plates, these references show the point on the map at which lines will converge if drawn to connect the marginal letters on top and bottom and the numbers on either side of map. Where a place may be known under different names or by various spellings of the same name, the different forms have been inserted, to a large extent, in the index. This applies particularly to the new states of Estonia, Latvia, Lithuania, Czechoslovakia and others where bilingual names of the same place exist. Where the same place name occurs two or more times within one country, each is followed by the name of a minor political division in italics.

Where space on the map has not permitted giving the complete form of a name, the extended form is shown in this index. Capitals of countries and states are designated. Populations of cities including suburbs are designated by daggers †. A complete index of the cities and towns of the United States will be found beginning on page 234, and of Canada beginning on page 190.

STATISTICAL GAZETTEER OF THE WORLD

This alphabetical list of grand divisions, countries, states, colonial possessions, etc., gives area, population and capital or seat of government. The mother country of colonial possessions is indicated in *italic* abbreviations enclosed within parentheses.

1927 ESTIMATES OF POPULATION FOR THE UNITED STATES

The following estimates of population for the United States and the several states as of July 1, 1927 have been made by the U. S. Bureau of the Census. The total for the United States is based in part upon the available data regarding births, deaths, immigration and emigration. The population for the several states is arrived at by distributing the total increase for the United States since 1920 on the basis of the distribution of the increase between 1910 and 1920, except that no estimate is made for those states which showed a decrease in population from 1910 to 1920, or 1920 to 1925, the figure given in such case being the population in 1920 or 1925.

Alabama	2,549,000	Iowa	2,425,000	Nebraska	1,396,000	Rhode Island	704,000
Alaska	459,000	Kansas	1,828,000	Nevada	a 77,400	South Carolina	1,845,000
Arizona	1,923,000	Kentucky	2,538,000	New Hampshire	455,000	South Dakota	696,000
California	4,431,000	Louisiana	1,934,000	New Jersey	3,749,000	Tennessee	2,185,000
Colorado	1,074,000	Maine	793,000	New Mexico	592,000	Texas	5,392,000
Connecticut	1,636,000	Maryland	1,597,000	New York	11,421,000	Vt.	522,000
Delaware	243,000	Massachusetts	4,242,000	North Carolina	2,897,000	Vermont	a 352,428
Dist. of Columbia	540,000	Michigan	4,490,000	North Dakota	b 641,192	Virginia	2,546,000
Florida	1,363,000	Minnesota	2,686,000	Ohio	6,710,000	Washington	1,562,000
Georgia	3,171,000	Mississippi	a 1,780,000	Oklahoma	2,384,000	West Virginia	1,096,000
Idaho	535,000	Missouri	a 3,510,000	Oregon	890,000	Wisconsin	2,918,000
Illinois	7,496,000	Montana	714,000	Pennsylvania	9,730,000	Wyoming	241,000
Indiana	3,150,000						
Total United States 118,628,000							

NEW OFFICIAL CENSUS

The statistics of population in this compilation are the result of the latest official census reports or official estimates and include, among others, the new government census figures of areas as follows:

Alberta.....1926
Algeria.....1926
Bulgaria.....1926
France.....1926
Germany.....1925
Greece or Greek.....1925
Hungary.....1925
Italy.....1925
Japan.....1925
L. of N.....1925
Mand.....1925
N. S.....1925
N. Z.....1925

"DL 30"

DISTANCES BETWEEN PRINCIPAL PORTS OF THE WORLD.

The chief ports of the world are named in alphabetical order across the top and down the sides of the tables. The distance between any two ports will be found at the intersection of the two columns which contain the names of the selected ports. Thus the distance from Baltimore to Bombay is given as 8,431, and the small "S" shows that the route is via Suez Canal. Distances are for full-powered steam vessels reckoned in nautical miles.

DISTANCES BETWEEN PRINCIPAL PORTS OF THE WORLD—Continued.

The chief ports of the world are named in alphabetical order across the top and down the sides of the tables. The distance between any two ports is found at intersection of the two columns which contain the names of the selected ports. Thus the distance from New York to Melbourne is given as 11,596, and the small "C" shows that the route is via Cape of Good Hope. Distances are for full-powered steam vessels reckoned in nautical miles.

For index of balance of France see pages 71 and 74

70

FRANCE—Continued

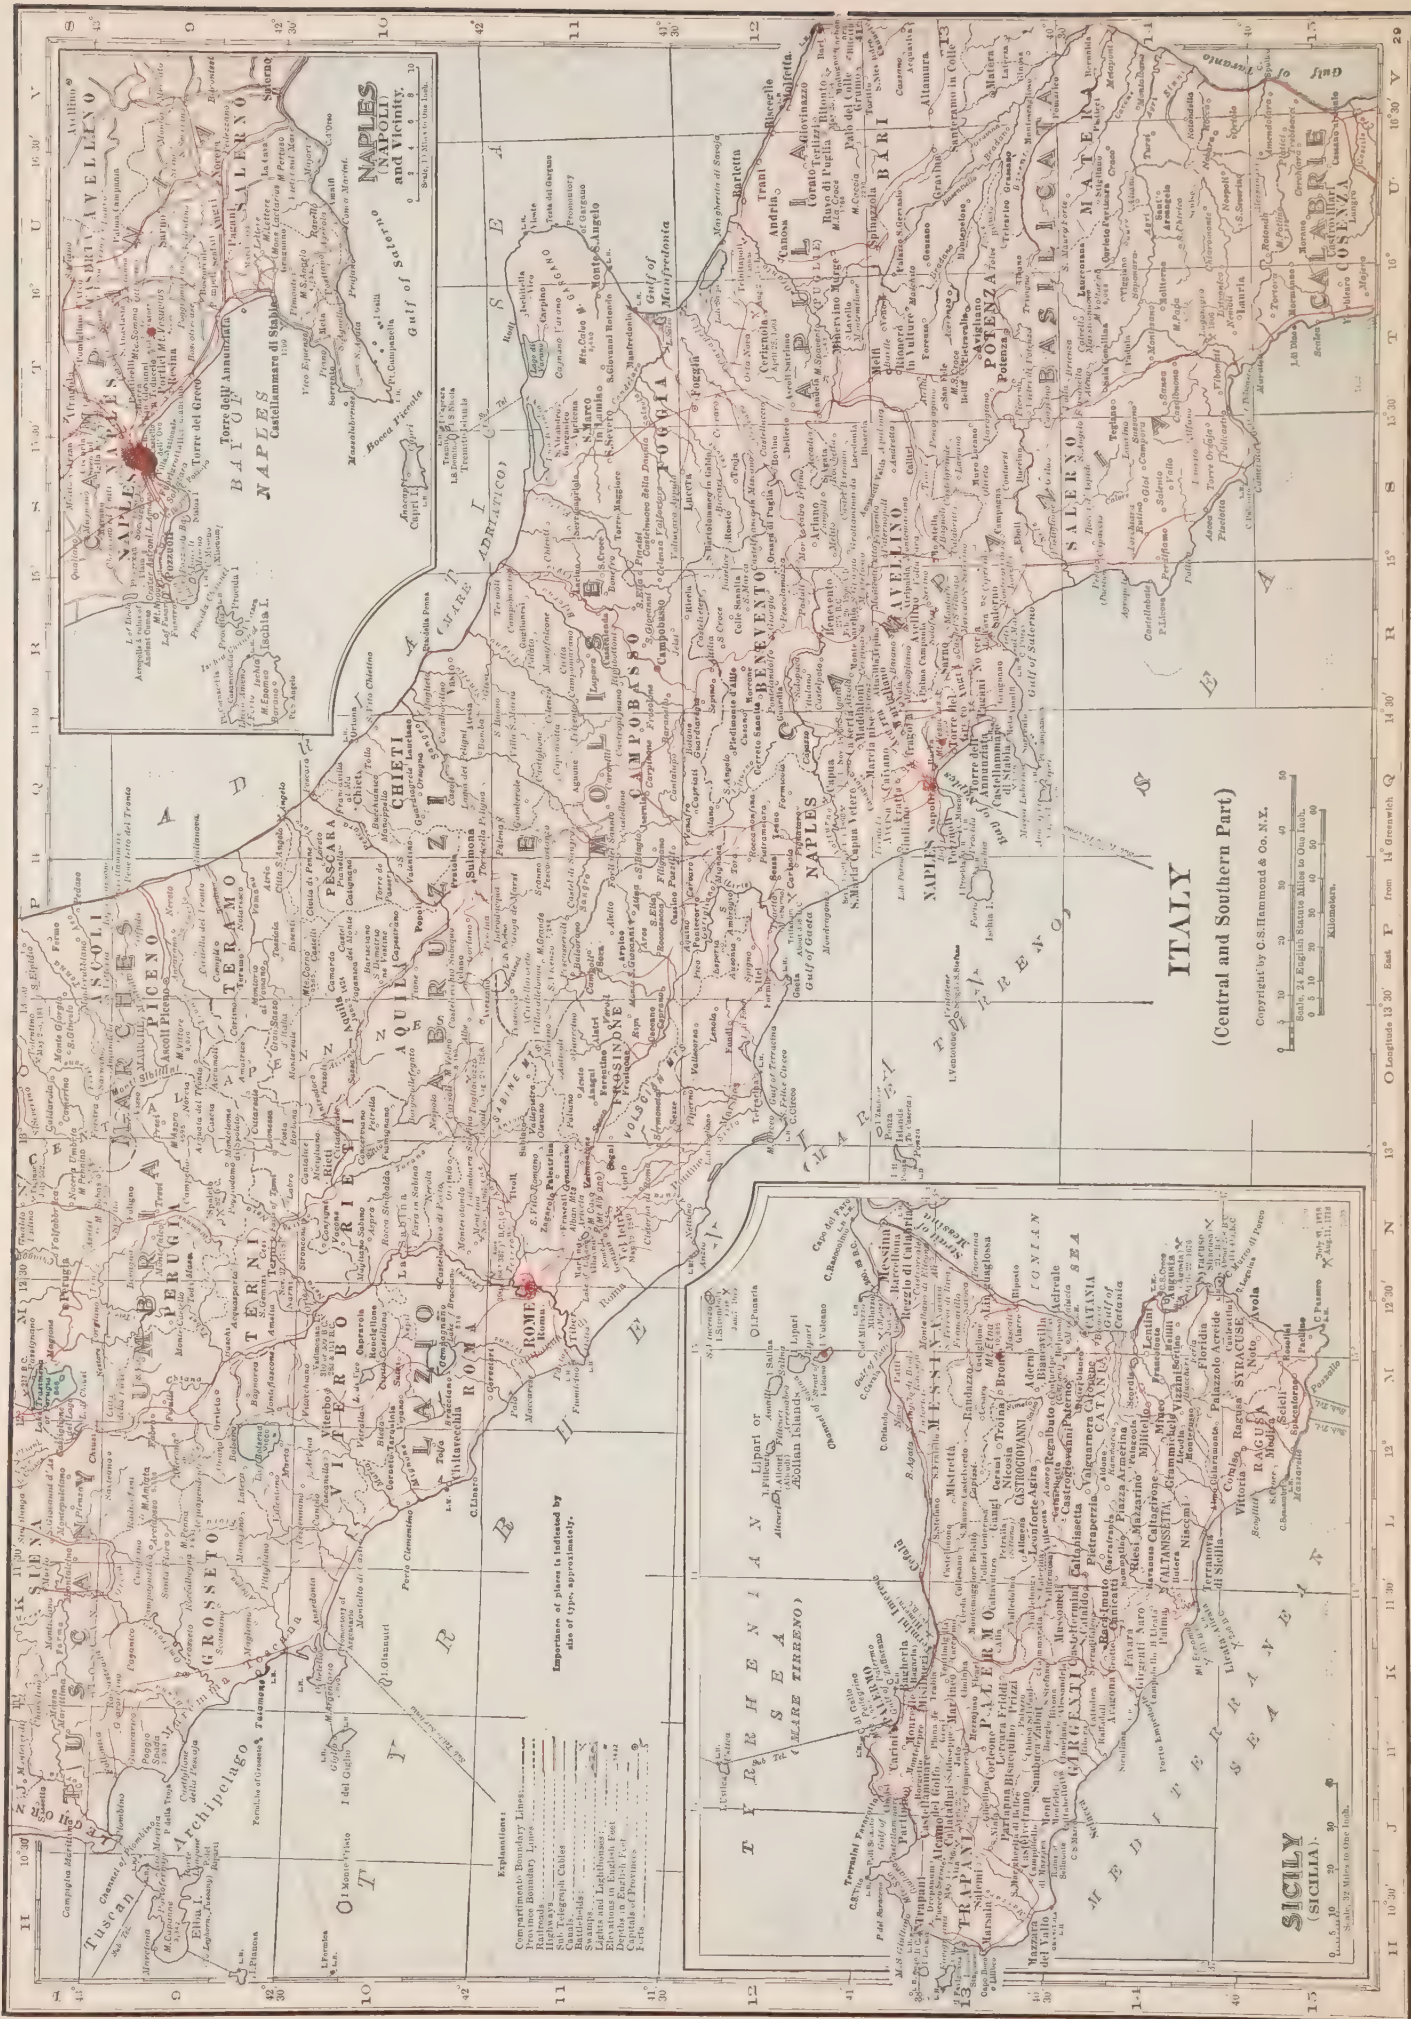

Table with 4 columns: Name, Address, Phone Number, and a small icon. The table lists numerous individuals and their contact information, organized alphabetically by name. The names are in French, and the addresses are in various locations, including Paris and other French cities. The phone numbers are listed in a standard format. The small icon in the last column is a small graphic of a person's head and shoulders.

Scale: 1 inch = 100 miles
Scale: 1 inch = 160 kilometers

Importance of places indicated by size of type, approximately

British India comprises all that part of the great island of Asia which was under the direct rule of the British Crown at the close of the year 1914. It includes the provinces of Bengal, Bihar, Central Provinces and Berar, Madras, Mysore, Orissa, Punjab, Rajputana, Sind, United Provinces, and the princely states of Kathiawar, Kutch, and the Nizam's Dominions. The area of British India is 1,327,000 square miles, and its population is 311,000,000.

Province	Area (sq. miles)	Population (1911)
Bengal	78,000	31,000,000
Bihar	32,000	12,000,000
Central Provinces and Berar	45,000	10,000,000
Madras	75,000	18,000,000
Mysore	4,000	2,000,000
Orissa	45,000	10,000,000
Punjab	36,000	12,000,000
Rajputana	34,000	8,000,000
Sind	28,000	4,000,000
United Provinces	77,000	22,000,000
Kathiawar	1,000	1,000,000
Kutch	1,000	1,000,000
Nizam's Dominions	100,000	10,000,000

ISOCHRONIC CHART

The zones of color show the number of days taken to reach certain regions from the Port of New York before the completion of the Panama Canal. For comparative purposes the basis of three hundred nautical miles steaming per day has been adopted, each zone of color representing five days or 1500 miles.

post offices, railway stations, etc. Approximate location

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

INDEX OF SMALLER PLACES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan: Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference. All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

PENNSYLVANIA
(Southeastern Part)

State Capital...
County Seats...
Railroads...
Canals...
Railroads not in operation...
Scale of miles...
All railroads are numbered as per act...
and accurate for the year 1900.

For railroad list, see back of volume.
For names of Pennsylvania towns, see back of volume.

INDEX OF COUNTIES WITH 1930 POPULATION FIGURES

INDEX OF INCORPORATED PLACES and other towns having 100 or more inhabitants WITH 1930 POPULATION FIGURES

INDEX OF SMALLER PLACES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery; C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

INDEX OF COUNTIES WITH 1930 POPULATION FIGURES

INDEX OF INCORPORATED PLACES and other towns having 100 or more inhabitants WITH 1930 POPULATION FIGURES

INDEX OF SMALLER PLACES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

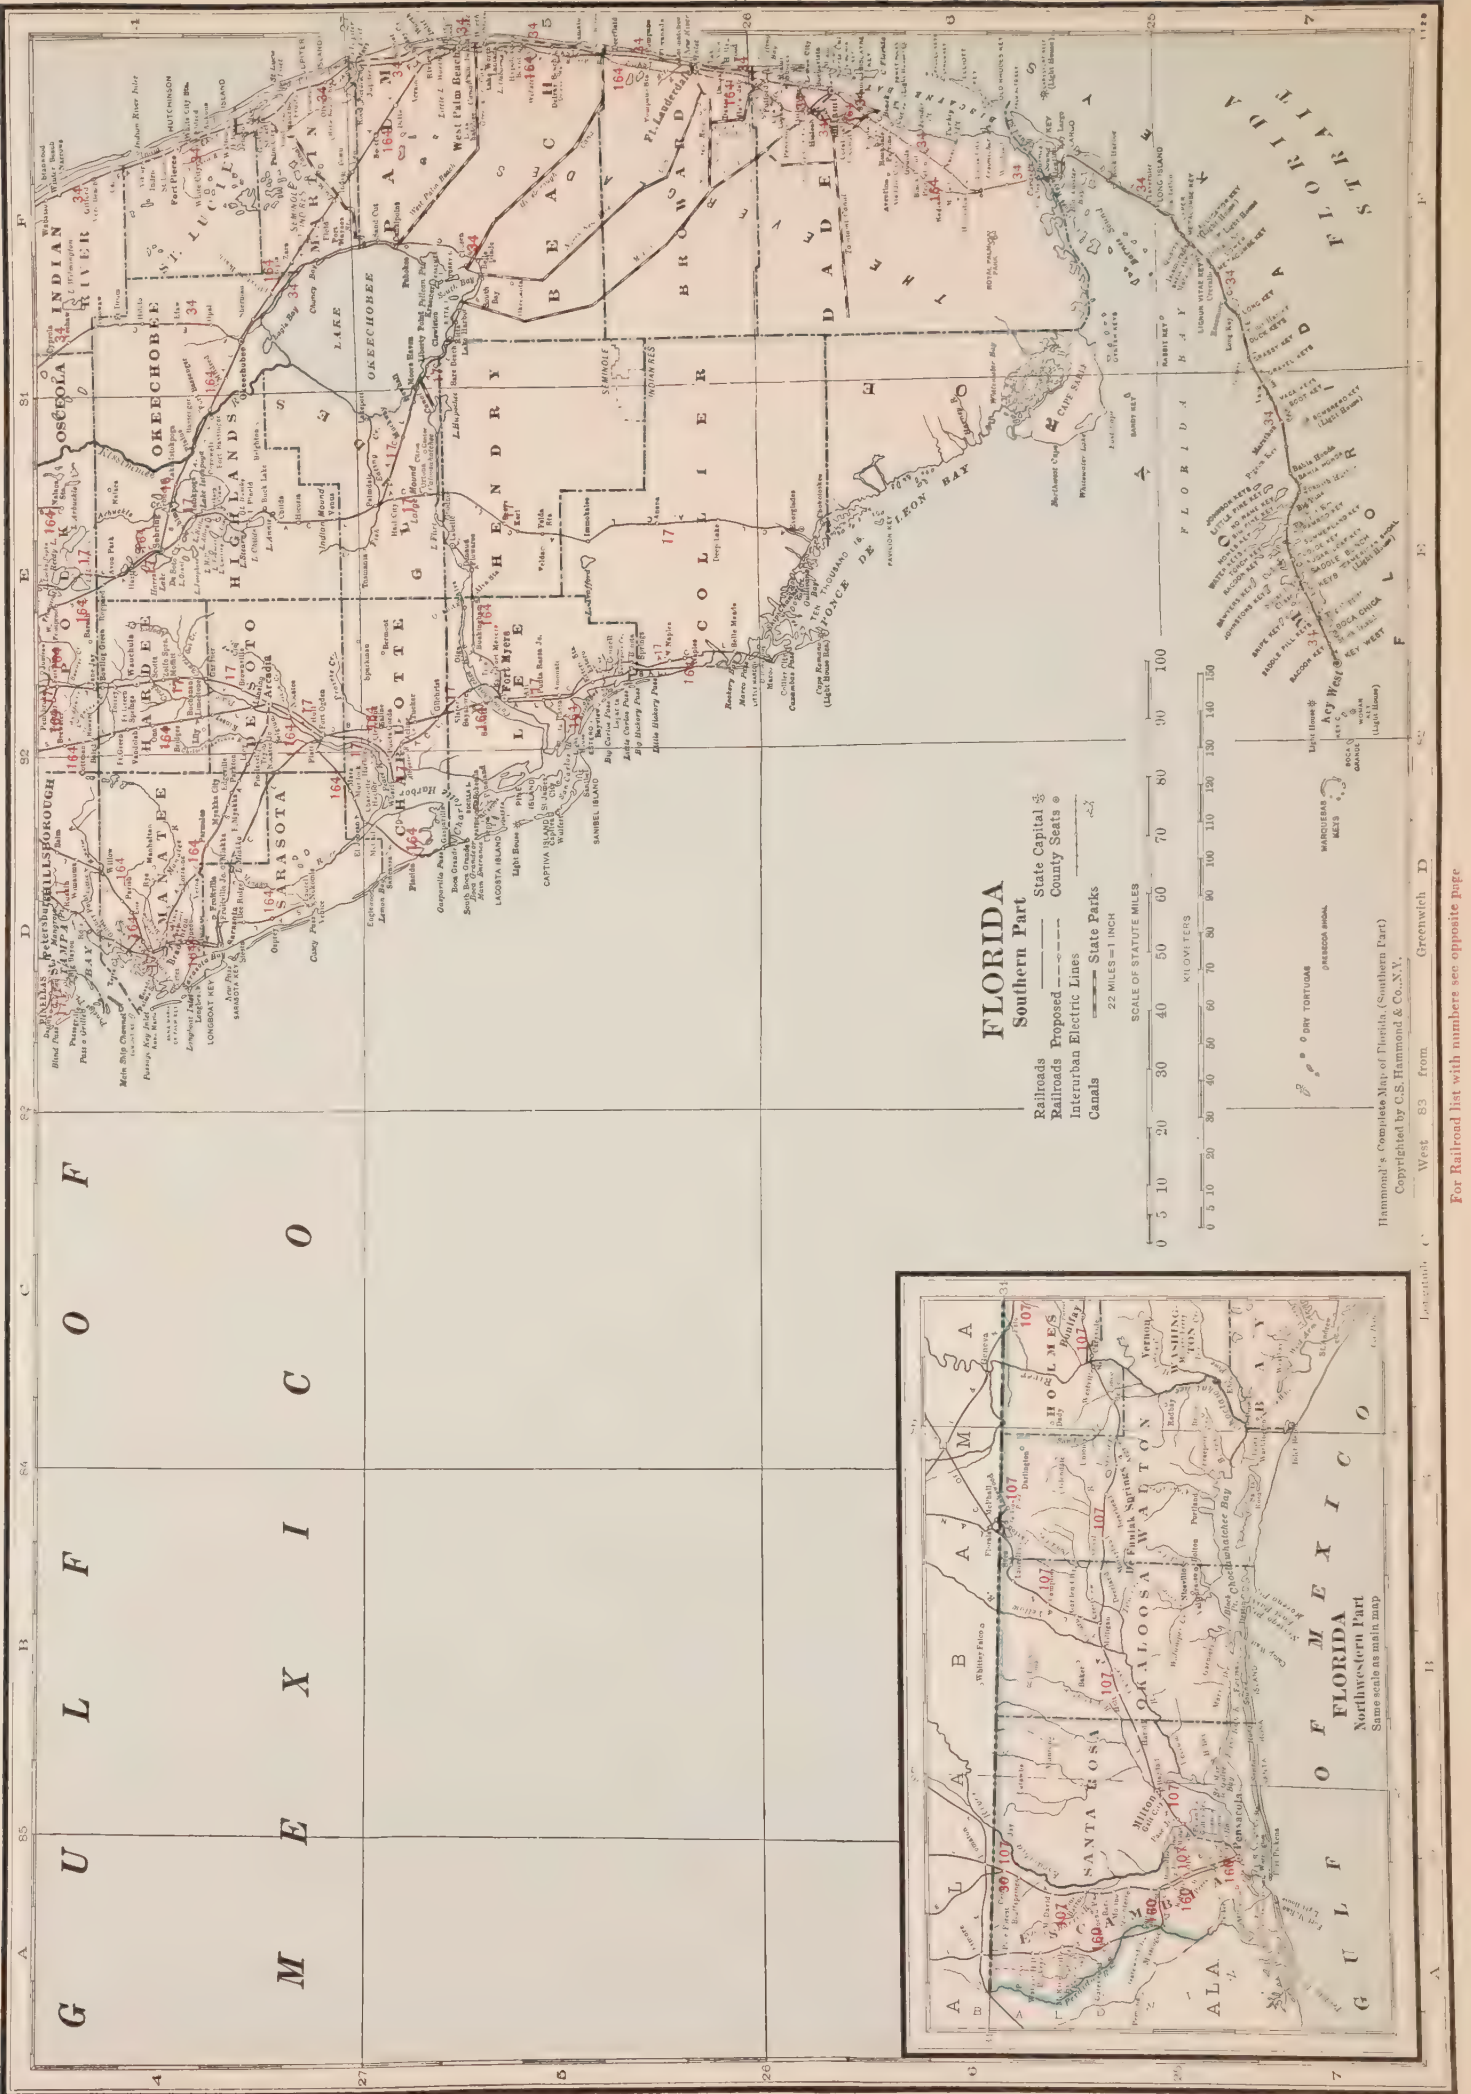

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 a. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

INDEX OF SMALLER PLACES

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C. T. From this it will be seen that the place is 3 miles south of Smithville, 3 miles east of Avery, and is shown on the map as C. T.

ABBREVIATIONS:

a. = near e. = east n. = north n. e. = northeast n. w. = northwest s. = south s. e. = southeast s. w. = southwest w. = west

st offices, railway stations, etc. Approximate loc

In 1918 it was determined because in each case the index reference of a nearby town, shown on the map, is given on the following plan:
ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:
Freight or passenger railway stations not shown on the map are followed by the initial "A" and the name of a nearby station on the same railroad with its index reference.
All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will
be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

(FOR IOWA COUNTIES, SEE BOTTOM OF PAGE 306)

INDEX OF INCORPORATED PLACES and other towns having 100 or more inhabitants WITH 1930 POPULATION FIGURES

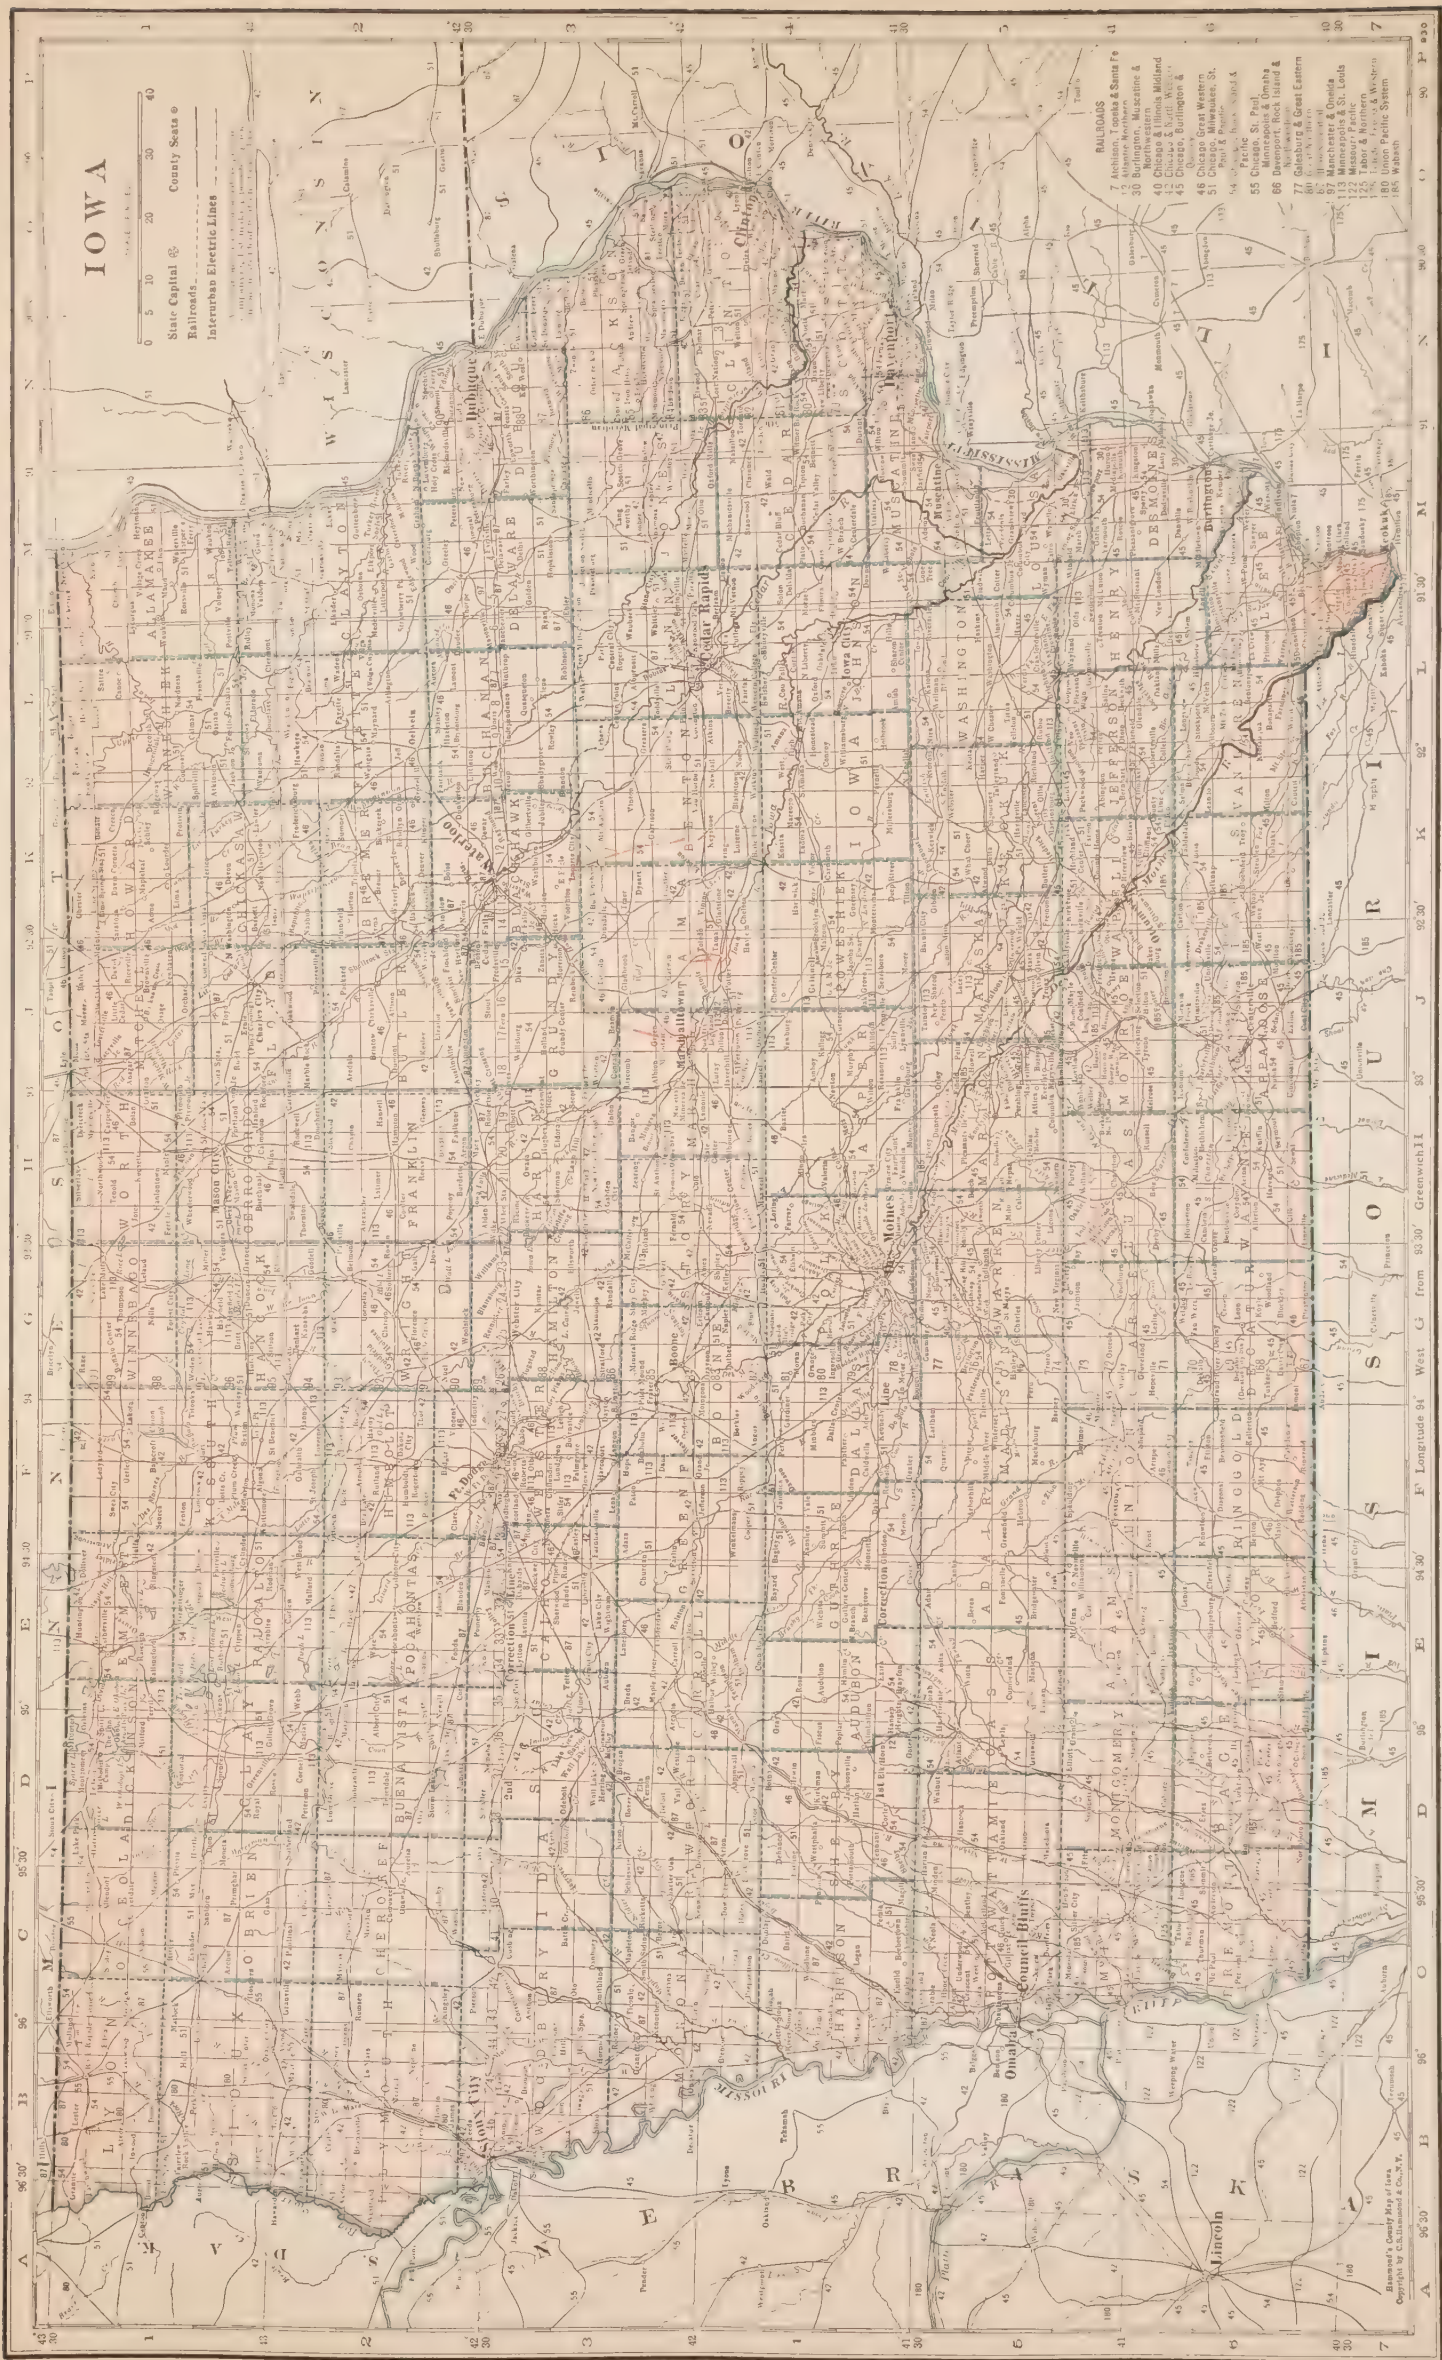

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

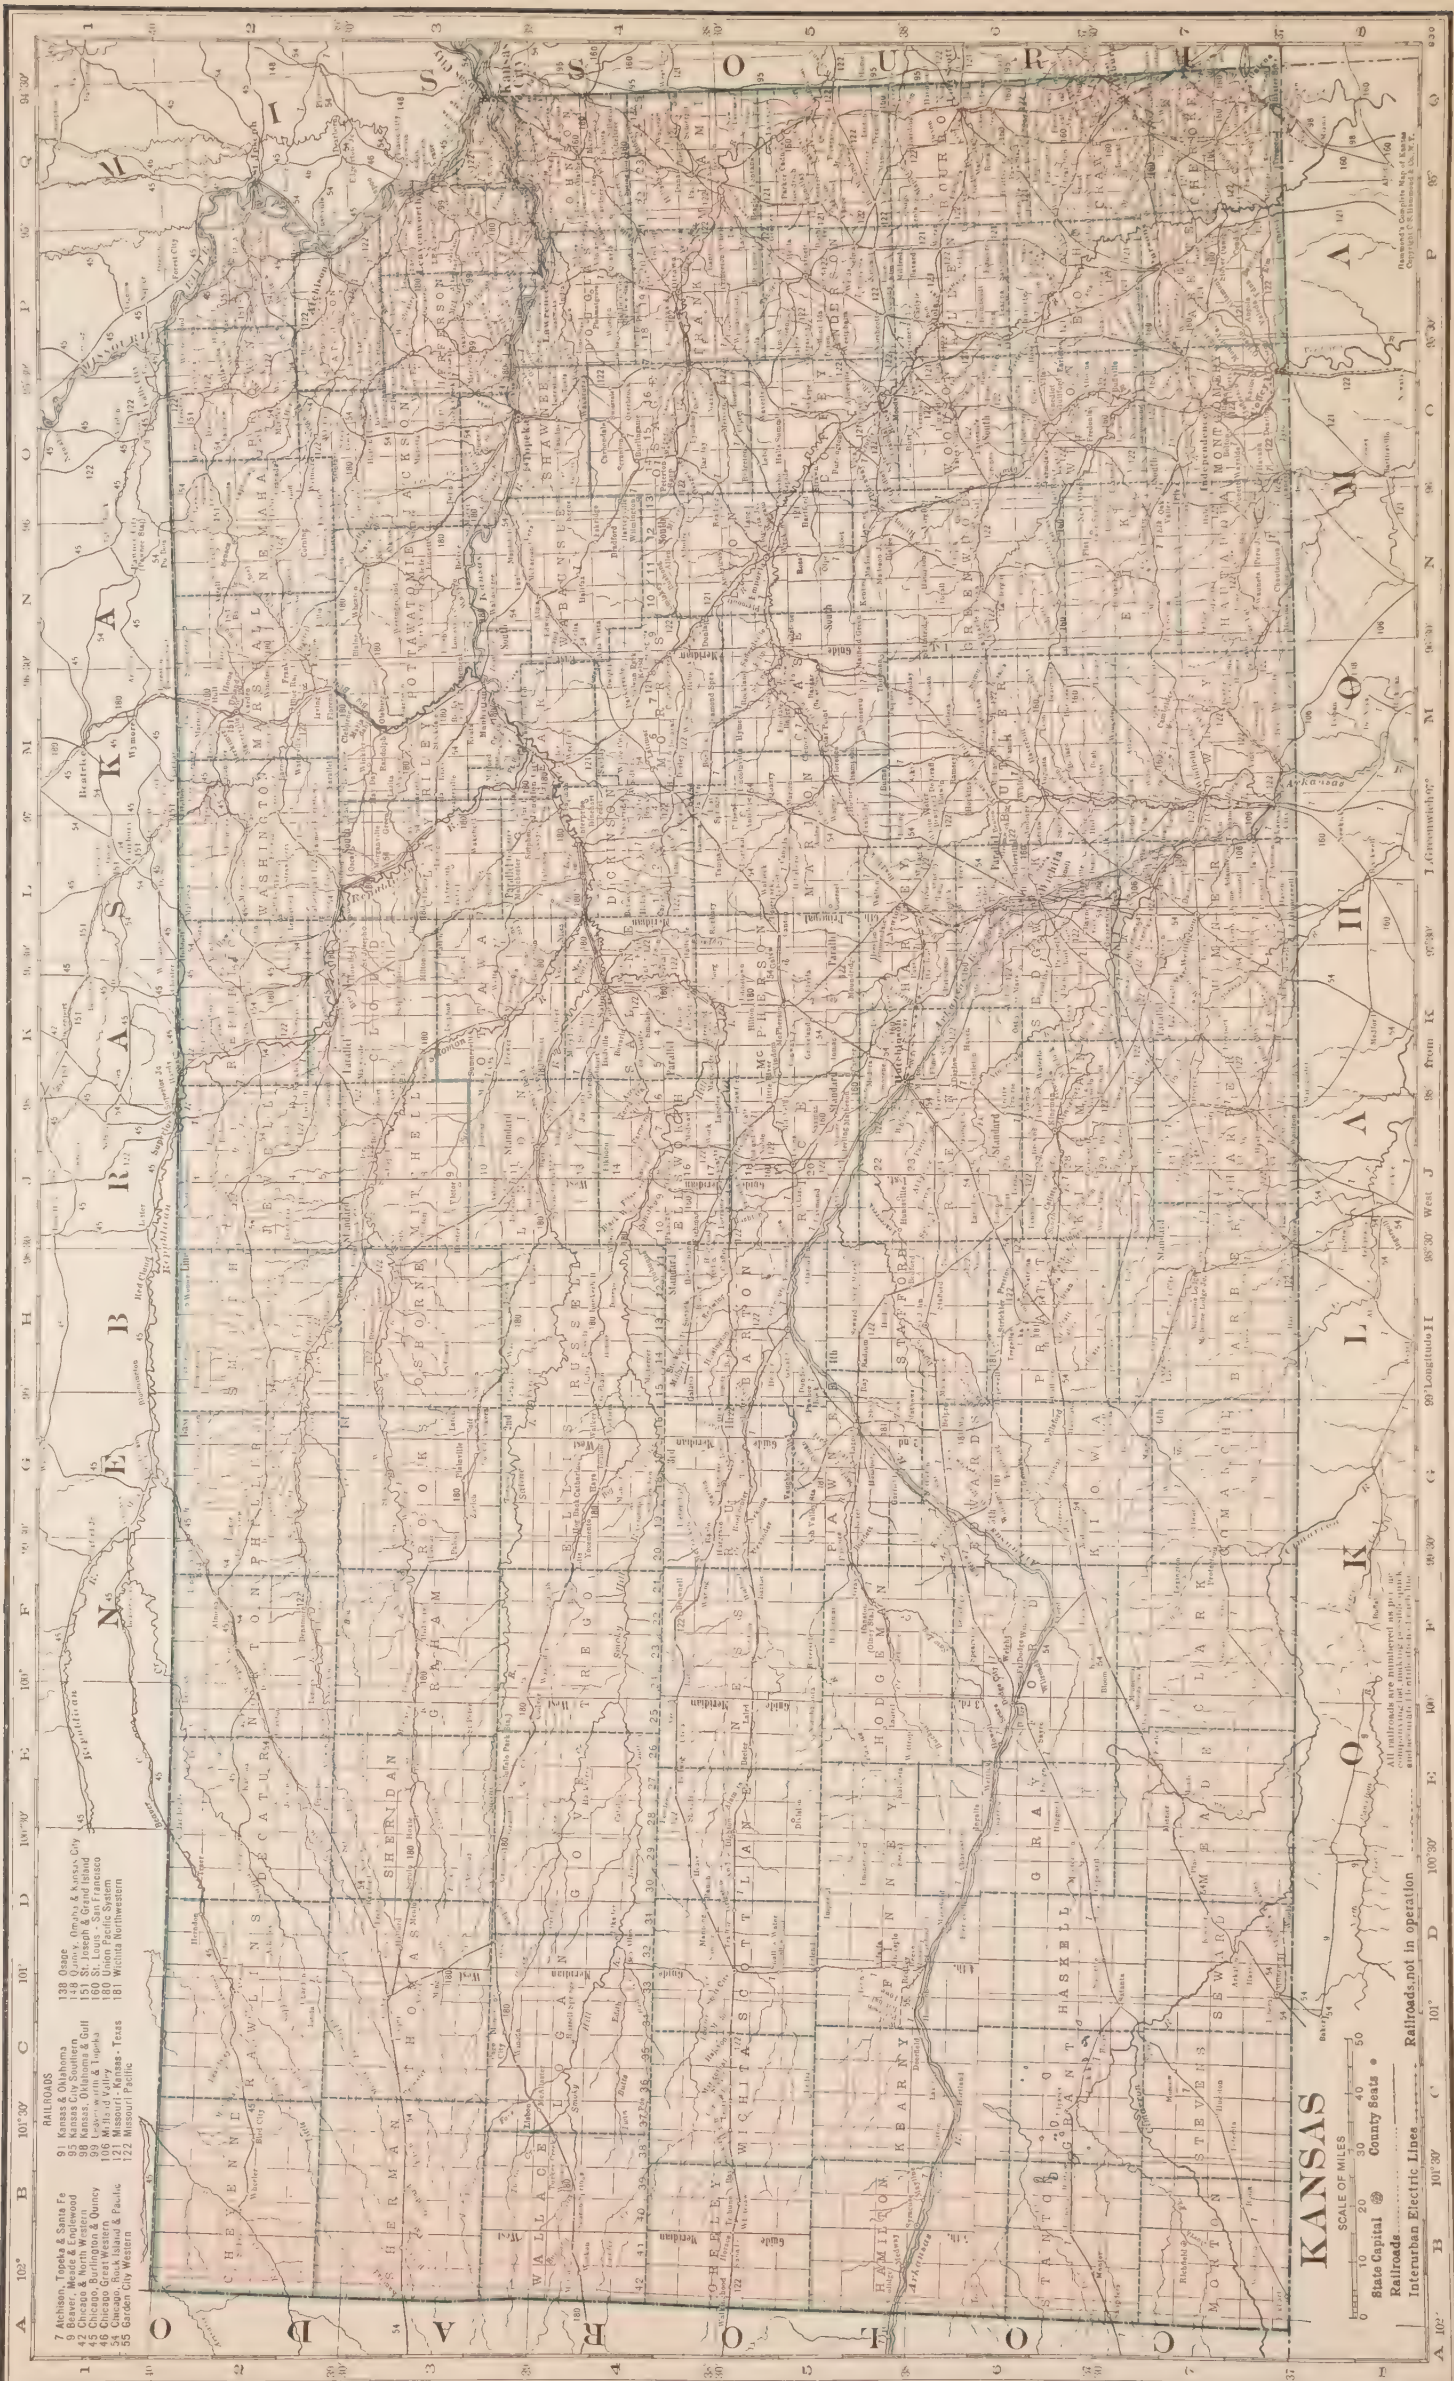

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

ABBREVIATIONS: a.=near e.=east n.=north n. e.=northeast n. w.=northwest s.=south s. e.=southeast s. w.=southwest w.=west

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

RAILROADS
All railroad lines are shown as per the latest available information. The lines are color-coded as follows:
42 Chicago & North Western
45 Chicago, Burlington & Quincy
46 Chicago, Burlington & Quincy & Pacific
54 Chicago, Burlington & Quincy & Pacific
55 Chicago, Burlington & Quincy & Pacific
80 Omaha
87 Omaha
113 Minneapolis & St. Paul
118 Rapid City, Black Hills & Western

INDEX OF COUNTIES WITH 1930 POPULATION FIGURES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "u" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

INDEX OF SMALLER PLACES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:
Freight or passenger railway stations not shown on the map are followed by the initial "a" and the name of a nearby station on the same railroad with its index reference.
All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C 7.

INDEX OF SMALLER PLACES

In this compilation are included the names of unincorporated places, post offices, railway stations, etc. Approximate locations of the few places which do not appear on the map may be easily ascertained because in each case the index reference of a nearby town, shown on the map, is given on the following plan:

Freight or passenger railway stations not shown on the map are followed by the initial "A" and the name of a nearby station on the same railroad with its index reference.

All other places not shown on the map are followed by the number of miles and direction from a nearby town shown on the map, as for example: Smithville, 3 s. e. Avery, C. 7. From this it will be readily understood that Smithville is 3 miles southeast of Avery, and that Avery is shown on the map at C. 7.

A minus sign (—) denotes decrease.

POSTAL GUIDE

POST-OFFICES, BRANCH POST-OFFICES, PARCEL POST UNITS, Etc.

LEGEND * Domestic money order offices † International money order offices * Postal savings depositories † Summer offices † Winter offices

The unit numbers, used in parcel post business, follow the names of the counties. A branch office or a station is in the same unit as the main office. Postal savings deposits are received only at the post-offices, branches, and stations that are authorized to transact postal savings business. Withdrawals must be made at the post-office, branch, or station at which the depositor maintains his account.

All stations issue and cash money orders, register letters and parcels, and sell postal supplies. Lettered and named stations, in addition, receive, deliver, and dispatch mail matter. Money orders are drawn only on the main office or branch offices, not on stations, but may be cashed at either the main office, branch office, or any station of such office.

Independent stations, indicated thus (Ind.), receive and dispatch registered mail in the same manner as post-offices and are the only stations to which postmasters address registered package jackets.

Corrected to January 1, 1927

For Parcel Post Map with Zone Scale etc., see third page cover

POSTAL GUIDE--WEST VIRGINIA, WISCONSIN.

[illegible]

POSTAL GUIDE---WISCONSIN, WYOMING.

[illegible]

DOMESTIC MAIL MATTER

CLASSIFICATION AND RATES OF POSTAGE

1. Domestic mail matter includes matter deposited in the mails for local delivery, or for transmission from one place to another within the United States, or to or from between the possessions of the United States, and is divided into four classes:

- First, Written matter, matter sealed against inspection, postal cards, and private mailing cards.
- Second, Periodical publications.
- Third, Merchandise, printed matter, and other mailable matter not in first and second classes, not exceeding 8 ounces in weight.
- Fourth (Parcel Post), Merchandise, printed matter, and other mailable matter not in first and second classes, exceeding 8 ounces in weight.

2. What is included in terms "United States" and "Possessions of United States."—Hawaii, Porto Rico, and the Virgin Islands of the United States are included in the term "United States." The Philippine Archipelago, Guam, Tutuila and Manua and other islands of the Samoan group east of longitude 171° west of Greenwich, and the Canal Zone are included in the term "Possessions of the United States." The term "Canal Zone" includes all the territory purchased from the Republic of Panama, embracing the "Canal Zone" proper and the islands in the Bay of Panama named Pedro, Neco, Culebra, and Flamenco.

NOTE.—The value of the stamps used to pay postage on matter mailed in the Philippine Islands to the United States is expressed in centavos, the value of a stamp of the denomination of 2 centavos being equivalent to 1 cent.

3. Domestic rates and conditions apply to mail matter addressed to officers or members of the crews of vessels of war of the United States, to matter sent to places where the United States mail service is in operation, and, with certain exceptions (see pp. 166 to 197), to that sent to Canada, Cuba, Mexico, Newfoundland, the Republic of Panama, and certain other Central and South American countries. The domestic rate applies also to letters, but not to other articles, addressed to certain countries named in articles 1 and 2, pages 166 to 197.

4. Preparation of postage on domestic matter at time of mailing, by stamps affixed, is required. By special permission, however, postage may be paid in money on matter of the first, second, third, and fourth classes when mailed in the quantities prescribed by article 68, page 17. Postmasters are not required to affix stamps to mail. When stamps are so affixed to mail that one overlies another, concealing part of its surface, the stamp thus covered is not taken into account in prepayment.

5. Letters of soldiers, sailors, and marines may be transmitted in the mails, without prepayment of postage, under the provisions of paragraphs 1 and 2, section 389, Postal Laws and Regulations.

6. Two classes of matter in one parcel.—Matter of a higher class inclosed with matter of a lower class subjects the whole to the higher rate. Persons knowingly concealing or inclosing matter of a higher class in that of a lower class, for the purpose of evading payment of the proper postage, are liable to a fine of not more than \$100. (Sec. 454, Postal Laws and Regulations.)

FIRST-CLASS MATTER.

7. Includes written matter, namely: Letters, postal cards, post cards (private mailing cards), and all matter wholly or partly in writing, whether sealed or unsealed, except manuscript copy accompanying proof sheets or corrected proof sheets of the same and the writing authorized by law to be placed upon matter of other classes. (Secs. 426, 441, and 447, Postal Laws and Regulations.) Matter sealed or otherwise closed against inspection is also of the first class. (Secs. 380 and 453, Postal Laws and Regulations.)

NOTE.—Typewritten and carbon and letterpress copies thereof are the equivalent of handwriting and are classed as such in all cases.

8. List of articles included in first-class matter:

- Assessment notices (printed) with amount due written therein.
- Albums (autograph) containing written matter.
- Blank books with written entries; blank checks filled out in writing, either canceled or uncanceled. Blank forms, filled out in writing.
- Cards or letters (printed) bearing a written date, where the date is not the date of the card, but give information as to when the sender will call, or deliver something otherwise referred to, or is the date when something will occur or is acknowledged to have been received.
- Cards (printed) which by having a signature attached are converted into personal communications such as receipts, orders for articles furnished by addressee, etc.
- Cards (visiting) bearing written name—except single cards inclosed with third or fourth class matter and bearing the name of the sender.
- Certificates, checks, diplomas, receipts, etc., filled out in writing.
- Communications entirely in print—except notation of name of sender—sent in identical terms by many persons to the same address.
- Copy (manuscript or typewritten) unaccompanied with proof sheets thereof.
- Folders made of stiff paper and those having many folds or pages, the entire inner surface of which can not be examined except at the imminent risk of breaking the seal, are subject to the first-class rate of postage. No assurance of the postmaster at the office of mailing will prevent the collection of the higher rate of postage at the post office of delivery if the entire inner surface can not be easily examined without danger of breaking the seal.
- Handwritten or typewritten matter and letter-press or manifold (carbon) copies thereof.
- Imitations or reproductions of handwritten or typewritten matter not mailed at the post-office window or other depository designated by the postmaster in a minimum number of twenty identical unsealed copies.
- Letters (irrespective of whether they are old or have previously passed through the mails) sent singly or in bulk.
- Price lists (printed) containing written figures changing individual items.
- Receipts (printed) with written signatures.
- Sealed matter of any class, or matter so wrapped as not to be easily examined, except third or fourth-class matter as prescribed in article 57, page 15, and seeds and other articles that may be inclosed in sealed transparent envelopes under paragraph 5, section 453, Postal Laws and Regulations.

Stenographic or shorthand notes.

(f) Typewritten matter, original letter-press and manifold copies thereof.

(g) Unsealed written communications.

9. Rates of postage on first-class matter.—(a) On letters and other matter, wholly or partly in writing, except the writing specially authorized to be placed upon matter of other classes, and on matter sealed or otherwise closed against inspection—2 cents an ounce or fraction thereof.

(b) On postal cards—1 cent each, the price for which they are sold. (See arts. 18 to 22, p. 11.)

(c) On private mailing cards (post cards) conforming to the requirements for post cards—2 cents each (See arts. 12 to 17, pp. 10 and 11.)

(d) On "drop letters," 2 cents an ounce or fraction thereof when mailed at letter-carrier post offices, including offices where village delivery service by carrier has been established, or at offices which are not letter-carrier offices if rural free delivery has been established and the persons addressed are served by rural carrier; and 1 cent for each ounce or fraction thereof when mailed at offices where letter-carrier service is not established, or at offices where the patrons are not served by rural carriers. There is no drop rate on mail other than letters. When any persons or concerns of any city or place send their letters in bulk for mailing for local delivery at a post office in another place where the 1-cent drop-letter rate is applicable, such letters are not drop letters and are not entitled to the 1-cent drop-letter rate but are subject to postage at the rate of 2 cents an ounce or fraction thereof. (Secs. 384 and 385, Postal Laws and Regulations.)

(e) Letters mailed at a post office for delivery to patrons thereof by star route carrier and those deposited in boxes along a star or rural route are subject to postage at the rate of 2 cents an ounce or fraction thereof.

(f) Letters received by a postmaster, under cover (through the mails), with postage prepaid on the bulk package at the letter rate, can not be distributed for local delivery or transmission in the mails unless each letter is prepaid at the regular first-class rate. (Par. 3, sec. 384, Postal Laws and Regulations.)

(g) A letter which, after a proper effort has been made to deliver it, is returned to the sender, may not be remailed without a new prepayment of postage, and it should be inclosed in a new envelope to secure prompt transmission.

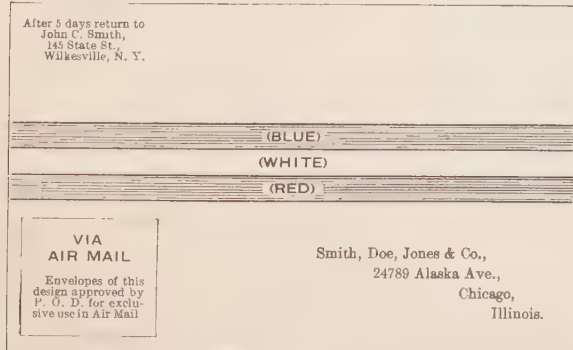

10. The limit of weight of first-class matter is the same as for fourth-class matter. (See art. 49, p. 14; secs. 450 and 451, Postal Laws and Regulations.)

AIR MAIL.

11. The rate of postage on matter carried by airplane on the transcontinental Government-operated air mail route is 10 cents for each ounce or fraction of an ounce. Such postage includes the transportation to and from the air mail route.

Any mailable matter, except that liable to damage from freezing, may be sent by air mail at the above rates of postage, including sealed parcels not exceeding 50 pounds in weight and not exceeding 84 inches in length and girth combined.

Special airplane stamps are issued for the payment of postage on air mail, but ordinary stamps may be used. The matter should be conspicuously indorsed in the space immediately below the stamps, above the address, "Via Air Mail," or "Via Night Air Mail," as the case may be. Envelopes of distinctive design, as illustrated below have been approved by the department and may be used for air mail.

Envelopes of the above design used for this purpose must be white, no other color being permissible. Thus the outstanding and conspicuous feature of the envelope will be the blue, white, and red stripes. The stripes must not exceed approximately one-fourth inch in width and should extend entirely across the length of the envelope. The blue stripe must be not less than 1½ inches below the top of the envelope, in order that clear space may be left for the necessary postage stamps and postmark. The white space between the blue and red stripes should be approximately one-fourth inch in width, so that the three stripes will not cover more than approximately three-fourths inch in all.

Such envelopes are not furnished by the department, but any person may have his envelopes for air-mail use printed in the foregoing manner.

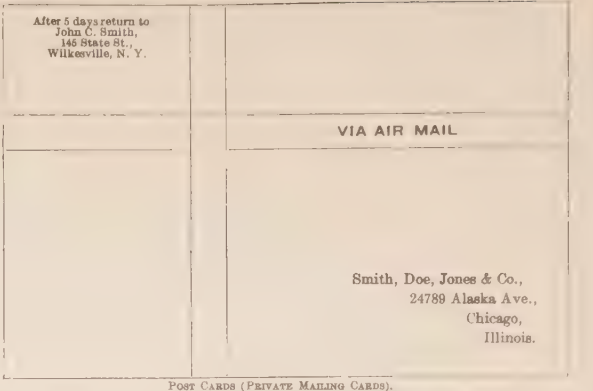

Envelopes having this special design may be used for air mail only. Their use for mail which is not intended to be carried by airplane will not be permitted.

All air mail should bear the sender's return card, which should appear in the upper left corner of the address side.

The design illustrated above is intended to apply particularly to printed envelopes. When ordinary envelopes are used to inclose air mail the mailer may identify the matter as intended for transmission by airplane by placing horizontally across the envelopes two blue lines approximately one-fourth inch apart, the upper line to be not less than 1½ inches below the top of the envelope. In such case the words "Via Air Mail" should be plainly and boldly written, handstamped, or printed in the upper right portion of the envelope, preferably between the two lines. Similar lines may also be placed vertically across the envelope not less than 3¼ inches from the right end. Such lines may also be placed on the backs of envelopes used for air mail.

The lines above mentioned may be placed on the envelopes with an ordinary blue pencil or, if desired, printed thereon in blue ink. Care must be exercised to see that the lines are uniformly placed and that they do not cover the address or return card.

Below is given an illustration of an envelope prepared as above outlined:

POST CARDS (PRIVATE MAILING CARDS).

12. Transmissible, when and where.—Post cards manufactured by private persons, consisting of an unfolded piece of cardstock of quality and weight substantially like the Government postal card, not exceeding in size approximately 3 9/16 by 5 9/16 inches, nor less than approximately 2½ by 4 inches, bearing either written or printed messages, are transmissible without cover in the domestic mails at the postage rate of 2 cents each. (Secs. 382 and 383, Postal Laws and Regulations.)

13. Advertisements and illustrations may appear on the back of the card and on the left half of the face. The right half of the face must be reserved for the address, postage stamps, postmark, etc.

14. Nonconforming cards, rate.—Cards bearing the words "Post Card" or "Private Mailing Card" which do not conform to the foregoing conditions are chargeable with 2 cents postage each except when they exceed 1 ounce in weight, in which case the letter rate of 2 cents for each ounce or fraction of an ounce applies.

15. Under cover, rate.—Cards mailed under cover of sealed envelopes (transparent or otherwise) are chargeable with postage at the first-class rate; if inclosed in unsealed envelopes, they are subject to postage at the first-class rate if wholly or partly in writing, or the third-class rate if entirely in print—the postage to be placed on the envelopes. Stamps affixed to matter inclosed in envelopes are not recognized in payment of postage thereon.

16. Double or reply post cards each portion of which conforms in size, quality, etc., to the foregoing conditions, subject to 2 cents postage, to be prepaid on the initial portion. The reply half, when detached and mailed, is also subject to 2 cents postage. The postage on the reply half need not be affixed thereto until it is detached from the initial half and mailed for return. The conditions pertaining to double postal cards, set forth in article 22, page 11, are also applicable to double post cards. Such cards must be so prepared that the address on the reply portion is on the inside when the double card is mailed. When both the original mailing address of the double card and the address on the reply portion are exposed it causes confusion in the mails, and therefore such folded cards are not mailable unless inclosed in envelopes or wrappers.

Double or reply post cards must be folded before mailing, but it is not necessary to fasten the two portions together. When such cards are properly folded they carry safely in the mails and do not require the edges to be fastened in any manner. However, when desired by the mailer, there is no objection to the use of plain stickers or seals to fasten the edges, provided they are so affixed that the inner folds of the cards can be readily examined. It is not permissible to use metal clips for this purpose. Inclosures are prohibited.

17. Folded advertising cards, and other matter entirely in print, arranged with a detachable part for use as a post card, are mailable as third-class matter provided they are so folded that the address on the reply card is on the inside when originally mailed.

POSTAL CARDS.

18. Postal cards are furnished at the postage value represented by the stamp impressed thereon; single postal cards for domestic and foreign correspondence at 1 cent and 2 cents each, respectively, and reply (double) postal cards at 2 cents and 4 cents each, respectively. (Sec. 381, Postal Laws and Regulations.)

19. Additions.—Written, printed, or other additions as follows:

- Addresses on postal cards may be either written, printed, or affixed thereto.
- Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.
- The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for the message, but the space to the right for the address only.

20. Unauthorized additions to a postal card will subject it, when mailed, to postage at the letter rate, if wholly or partly in writing, or at the rate for the added matter, if it bears no writing.

21. International postal cards.—The United States International single and reply postal cards should be used for correspondence with foreign countries (see pp. 168 to 197).

22. Reply or double postal cards.—Either half of a domestic reply postal card may be used separately. Such postal cards should be folded before mailing, but it is not necessary to fasten the two portions together. When such cards are properly folded they carry safely in the mails and do not require the edges to be fastened in any manner. However, when desired by the mailer, there is no objection to the use of plain stickers or seals to fasten the edges, provided they are so affixed that the inner folds of the cards can be readily examined. It is not permissible to use metal clips for this purpose. Inclosures are prohibited.

SECOND-CLASS MATTER.

23. Second-class matter includes newspapers and periodicals bearing notice of entry as second-class matter. No limit of weight is prescribed. (Secs. 393 to 434, Postal Laws and Regulations.)

24. The rate of postage on newspapers and periodicals of the second class, when sent unsealed by the public, that is, by others than the publisher or a news agent, is 2 cents for each 2 ounces or fraction thereof up to 8 ounces and the fourth-class rates set forth in the table on page 13 on parcels exceeding 8 ounces in weight, such postage being computed on each separately addressed copy or package of unaddressed copies. (Sec. 419, Postal Laws and Regulations.)

25. Additions to second-class matter.—(a) On the wrapper, or the matter itself, there may be written or printed: (1) The name and address of the sender, preceded by the word "from"; (2) the name and address of the person to whom sent; (3) the words "sample copy" or "marked copy," or both, as the case may be.

(b) On the matter itself the sender may place all that is permitted on the wrapper; correct typographical errors in the text; designate by marks, not by words, a word or passage in the text to which it is desired to call attention. Other writing will subject the package to the first-class rate.

(c) Communications prepaid at the first-class rate may be attached to second-class matter under the conditions set forth in article 54, page 15.

26. Application for entry of a publication as second-class matter or registry as a news agent should be made through the postmaster to the Third Assistant Postmaster General, Division of Classification.

27. Periodical publications not desired may be refused and not removed from the post office, or they may be returned to the postmaster indorsed "Refused." The Post Office Department does not determine questions regarding the liability of a subscriber for the subscription price of a publication.

A subscriber to a publication should promptly notify the publisher of any change in his address. (Secs. 617-619, Postal Laws and Regulations.)

THIRD-CLASS MATTER.

28. Third-class matter embraces circulars, books (including catalogues) having, including the covers, 24 pages or more, and other printed matter on paper not having the nature of an actual personal correspondence (except newspapers and periodicals admitted to the second class), proof sheets, corrected proof sheets, and manuscript copy accompanying the same, matter in point print or raised characters used by the blind, merchandise, farm and factory products, seeds, bulbs, cuttings, roots, adons and plants, and all other mailable matter not embraced in the first and second classes, when sent in packages weighing up to and including 8 ounces. The same matter when sent in parcels exceeding 8 ounces in weight is embraced in fourth-class or parcel-post mail. (Secs. 435, 437, 439, and 442, Postal Laws and Regulations.)

29. Circulars.—A circular is a printed letter sent in identical terms to several persons. It may bear a written, typewritten, or hand-stamped date, name and address of person addressed and of the sender, and corrections of mere typographical errors. When a name (except that of the addressee or sender), date (other than that of the circular), or anything else is handwritten or typewritten in the body of a circular for any other reason than to correct a genuine typographical error, the circular is subject to postage at the first-class (letter) rate, whether sealed or unsealed. (Sec. 436, Postal Laws and Regulations.)

30. Reproductions or imitations of handwriting and typewriting obtained by means of the printing press, mimeograph, multigraph, or similar mechanical process will be treated as third-class matter, provided they are mailed at the post-office window or other depository designated by the postmaster in a minimum number of 20 identical unsealed copies. If mailed elsewhere or in less quantity, they will be subject to the first-class rate. (Sec. 438, Postal Laws and Regulations.)

31. Matter for the blind.—Letters and reading matter for the blind are transmissible in the mails under certain conditions at special rates, as set forth in sections 439, 495 and 495A, Postal Laws and Regulations.

32. The rate of postage on third-class matter is 1½ cents for each 2 ounces or fraction thereof, up to and including 8 ounces, except that the rate on books (including catalogues) having 24 pages or more, seeds, cuttings, bulbs, roots, adons and plants, not exceeding 8 ounces in weight, is 1 cent for each 2 ounces or fraction thereof, on each individually addressed piece or package. The 1-cent rate does not apply to blank books or to those mainly blank. (Secs. 435, Postal Laws and Regulations.)

33. The limit of weight of third-class matter is 8 ounces. Parcels of printed matter, merchandise, etc., weighing more than 8 ounces which do not exceed the limit of weight and size for fourth-class matter come within that class and are mailable at the parcel-post rates. (Secs. 450 and 451, Postal Laws and Regulations.)

34. Additions to third-class matter.—(a) On the wrapper, envelope, or the tag or label attached thereto, or upon the matter itself, in addition to its name and address of the addressee, there may be written or printed the name, occupation, and residence, or business address of the sender, preceded by the word "from." There may also be placed on the wrapper, envelope, tag, or label, either written or otherwise, the inscription "Do not open until Christmas," or words to that effect, and any printed matter mailable as third-class, but there must be left on the right portion of the address side 3¼ inches space for a legible address, postmark, and the necessary postage stamps, and any word necessary for forwarding or return, etc. (Secs. 441 and 457, Postal Laws and Regulations.)

The words "Please send out," or "Post up," or other similar directions or requests, not a part of the address, itself without subjecting it to postage at the letter rate.

(b) On the matter itself the sender may place all that is permitted on the wrapper, and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct typographical errors. There may also be written or printed upon any photograph, or other matter of the third class, a simple manuscript dedication or inscription not in the nature of personal correspondence. Such words as "Dear Sir," "My dear friend," "Yours truly," "Sincerely yours," "Merry Christmas," "Happy New Year," and "With best wishes," written upon third-class matter, are permissible inscriptions. A serial number written or impressed upon third-class matter does not affect its classification.

(c) Written designation of contents, such as "printed matter," "photo," is permissible upon the wrapper of third-class matter.

35. The additions permissible on fourth-class matter are also permissible on third-class mail. (See articles 52 and 54, pages 14 and 15.)

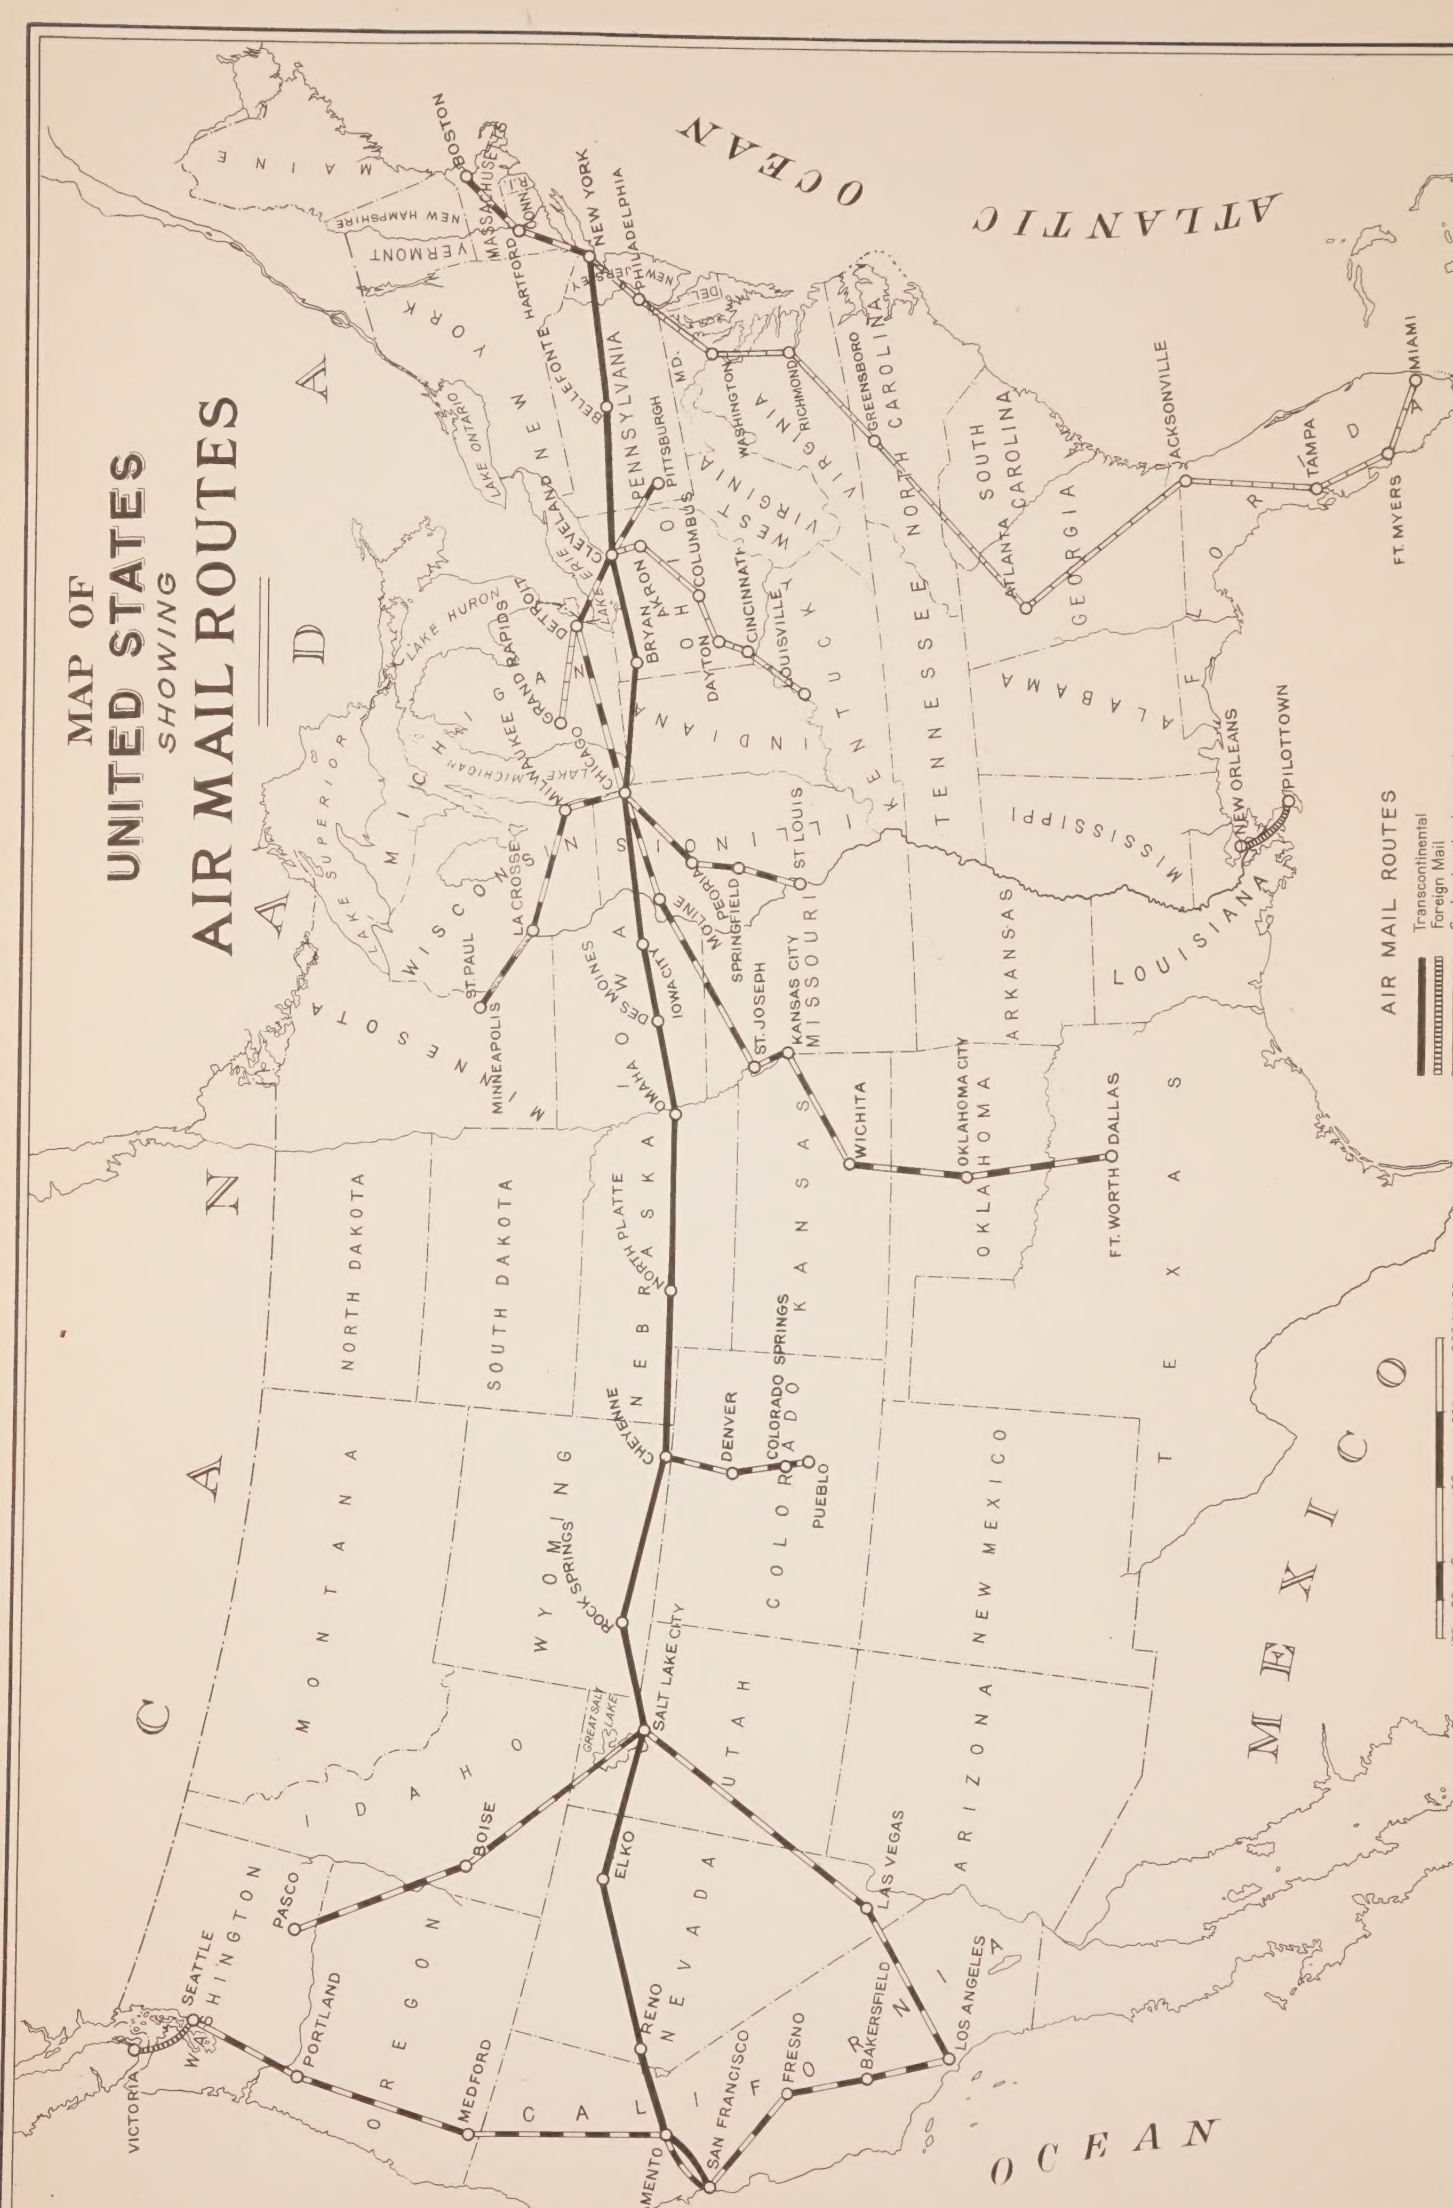

36. Hand-stamped imprints on third-class matter will not affect its classification except when the added matter is in fact personal or converts the original matter into a personal communication; in the latter case, however, the mailing at one time at the post office window or other depository designated by the postmaster of not less than 20 identical unsealed copies will be sufficient evidence of impersonal character to entitle such matter to the third-class rate. (Sec. 441, Postal Laws and Regulations.)

37. Corrections in proof sheets include the alteration of the text and insertion of new matter, as well as the correction of typographical and other errors; include also marginal instructions to the printer necessary to the correction of the matter or its proper appearance in print. Part of an article may be entirely rewritten if that be necessary for correction. Corrections should be upon the margin of or attached to the proof sheets. Manuscript of one article can not be used with proof sheets of another except at the first-class rate.

38. Permissible inclosures.—There may be inclosed with books (including catalogues) of 24 pages or more, mailed at the special rate of 1 cent for each 2 ounces or fraction thereof, a single reply envelope or post card (but not both), an order form, and a single loose printed circular not larger than a page of the book or catalogue, provided only such matter appears on the envelope, post card, order form, or circular, as obviously relates exclusively to the book or catalogue. The inclosure of other printed matter or the attaching to a book or catalogue of samples of cloth or other merchandise subjects the package to the regular third-class rate of 1½ cents for each 2 ounces or fraction thereof.

39. A communication may be attached to and mailed with third-class matter under the conditions set forth in articles 55 and 56, page 15.

MAP OF UNITED STATES SHOWING AIR MAIL ROUTES

PARCEL POST OR FOURTH-CLASS MAIL

RATES OF POSTAGE, CLASSIFICATION, INSURANCE AND C. O. D. FEATURES, WRAPPING, ETC.

Fourth-class Matter, known as domestic parcel post mail, includes all parcels over 8 ounces in weight containing circulars, books, catalogues, and other matter wholly in print, together with merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, and all other mailable matter not embraced in the first and second classes. The same matter in parcels weighing 8 ounces or less is embraced in third-class mail on which the rate of postage is 1½ cents for each 2 ounces or fraction of 2 ounces except for books (including catalogues) having 24 pages or more, seeds, cuttings, bulbs, roots, scions, and plants, on which the rate is 1 cent for each 2 ounces or fraction thereof, up to and including 8 ounces, to be fully prepaid.

Rates of Postage on Fourth-class Matter (over 8 ounces).—To be Fully Prepaid.—Are by the pound, according to distance or zone, a fraction of a pound being computed as full pound, and in addition a service charge of 2 cents for each parcel except upon those collected on rural delivery routes. These rates, including the 2-cent service charge, are shown in the following table and paragraph (a):

TABLE OF RATES BY ZONES

Weight in pounds.		Local.									
		1st Up to 50 miles.									
		2d Up to 150 miles.

It bears the name and address of the sender, which should be preceded by the word "From" and be less conspicuous than that of the addressee.

Additions to Fourth-class Mail.—There may be placed on fourth-class matter, or on the wrapper or cover, tag, or label, any mark, number, name, or letters for purpose of description. There may be written on the blank leaves or cover of any book a simple manuscript dedication or inscription not in the nature of personal correspondence. Space sufficient for a legible address, postmark, the necessary postage stamps, and any words necessary for forwarding or return, must be left on the address side of the parcel.
